

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE

55555
This is the first General Register to be published by the University. It is intended to give a concise history of the personnel of the University, as to officers, faculty, and graduates, from the date of organization to July 1, 1904.

The information has been obtained from many sources, but principally from the persons named in the volume, the records of the Secretary of the Board of Regents, the University catalogues, and the records of the Alumni Association.

The officers and members of the Board of Regents have been arranged in order of appointment, or election; the officers of administration, according to the plan of the Annual Catalogue; and the officers of instruction, on the basis of seniority. The data concerning each officer is limited to his career in the University of Oregon.

In the list of the Alumni appear the names of the graduates of the old Normal Course, abolished in 1884. By formal act of the Board of Regents in June 1890, the degree of B. S. was conferred on all graduates of the Normal Course. The English Course had but one graduate. The degrees of B. L. and B. S. D. have been conferred only once (1897) in the history of the University. The B. L. degree was conferred on three graduates of the class of 1897 for the completion of the four-year Literary Course. The B. S. D. degree was given to six graduates of a short course in Scientific Didactics.

The present volume contains the names of all graduates of the University, including the class of 1904.

The name of each person known to be deceased is marked with an asterisk (*).

The last known address is given in each case.

While great care has been taken to insure the accuracy of the data given, many errors and imperfections will no doubt be found in this first General Register. The alumni can effectively assist in the work of keeping a correct and complete register by informing the University of any change in address or profession.

J. A. GAMBER.
